DANONE PALM OIL SUPPLIERS AND MILL & PLANTATION LIST H1 2024

Published March 2025

Danone is committed to working towards eliminating deforestation, conversion and land degradation from its supply chain, and to the principles of no deforestation, no development on peat, and no exploitation of rights of workers, indigenous peoples and local communities (NDPE), and Free, Prior, Informed Consent (FPIC) and land rights of indigenous population and local communities. We are a member of the Roundtable on Sustainable Palm Oil (RSPO). Danone endorsed the Consumer Goods Forum (CGF) and participates actively in achieving zero net deforestation in key commodity sectors by 2025. We are also part of the Forest Positive Coalition (FPC) of Actions as a member of the steering committee and three wroking groups on raw materials, including palm oil. We have been recognized by the WWF Palm Oil Buyers Scorecard (21.68 out of 24 points on their latest scorecard) for our commitments and actions in favor of sustainable palm oil.

To push our commitment to tackle deforestation, conversion and land degradation further, Danone issued its Renewed Forest Policy in 2022. Palm oil is one of our Policy's priority commodities, for which we have specific targets and timelines. We thus commit to source 100% RSPO Segregated (SG) or Independent Smallholder Credits for all our palm oil use by 2025, to reach 100% traceability from plantation level by 2023, and to engage our suppliers to match our commitments by 2025. We already have put in place a traceability system allowing us to map our supply chain each year, with the support of Earthworm Foundation. Danone has also put in place a grievance process, designed with the support of Earthworm Foundation, to enhance transparency and its capacity to act. In 2024, Danone launched, with the help of external partners, the implementation of satellite monitoring within Danone's supply chains including for palm oil. Satellite monitoring is a complementary monitoring method that is based on improved traceability in Danone's supply chains, the objective is to determine the vDCF status of the remaining volumes that could not be verified through another pathway such as segregated certification.

Recognizing that transparency is important to making tangible progress on responsible palm oil, Danone is publishing the results of our mapping exercise for H1 2024. The updated mapping shows we have 100% traceability to mill (TTM; in part A below). Danone also has 98% overall traceability to plantation (TTP, in part B below) score based on direct suppliers scores for total volumes sourced. The direct suppliers scores are specific to the respective facilities/supply chain from which Danone is buying.

In 2024, 97% of the palm oil sourced by Danone was certified Roundtable on Sustainable Palm Oil (RSPO) segregated (vs. 95% in 2023) and 2.2% was certified RSPO Mass Balance. The remaining 0.8% was conventional palm oil sourced in West Africa.

DANONE H1 2024 TIER 1 SUPPLIER LIST
AAK
Bakels
Cargill
Premium Edible Oil Products Limited
Oleofinos
