

# PALM OIL UPDATE 07-2020

## 2019 Palm Oil Tier 1 Suppliers and Mills

Danone is committed to eliminating deforestation from its supply chain by end of 2020, and to the principles of no deforestation, no development on peat, and no exploitation of rights of workers, indigenous peoples and local communities (NDPE). We signed the New York Declaration on Forests and are a member of the Roundtable on Sustainable Palm Oil (RSPO), the Palm Oil Innovation Group (POIG), the Southeast Asia Alliance for Sustainable Palm Oil (SASPO) and the North America Sustainable Palm Oil Network (NASPON). We also support the Consumer Goods Forum (CGF) resolution to achieve zero net deforestation in key commodity sectors, including palm oil, by 2020.

Danone issued its [latest Palm Oil Policy in 2015](#). We have put in place a traceability system allowing us to map our supply chain each year, with the support of the Earthworm Foundation (formerly The Forest Trust). We recognize that transparency is important to making tangible progress on responsible palm oil. For this reason, Danone is publishing the results of our mapping exercise for H1 2019. Danone also put in place [a grievance process](#), designed with the support of Earthworm, to enhance transparency and our capacity to act.

In 2019, Danone purchased a total of 68 Ktons of palm oil, 48% of which were RSPO segregated (33 Ktons) and 51% of which were RSPO mass balanced (35 Ktons).

N.B. As part of our commitment to eliminating deforestation, Danone is committed to sourcing 100% RSPO segregated palm oil by end 2020. The mass balance volumes for 2019 are due to the absence of a segregated supply chain in the USA. To overcome this challenge, we are developing with traders the first 100% RSPO segregated palm oil supply in the USA. It will be launched before end 2020.
